

# Download LOG Files through FusionSolar 7

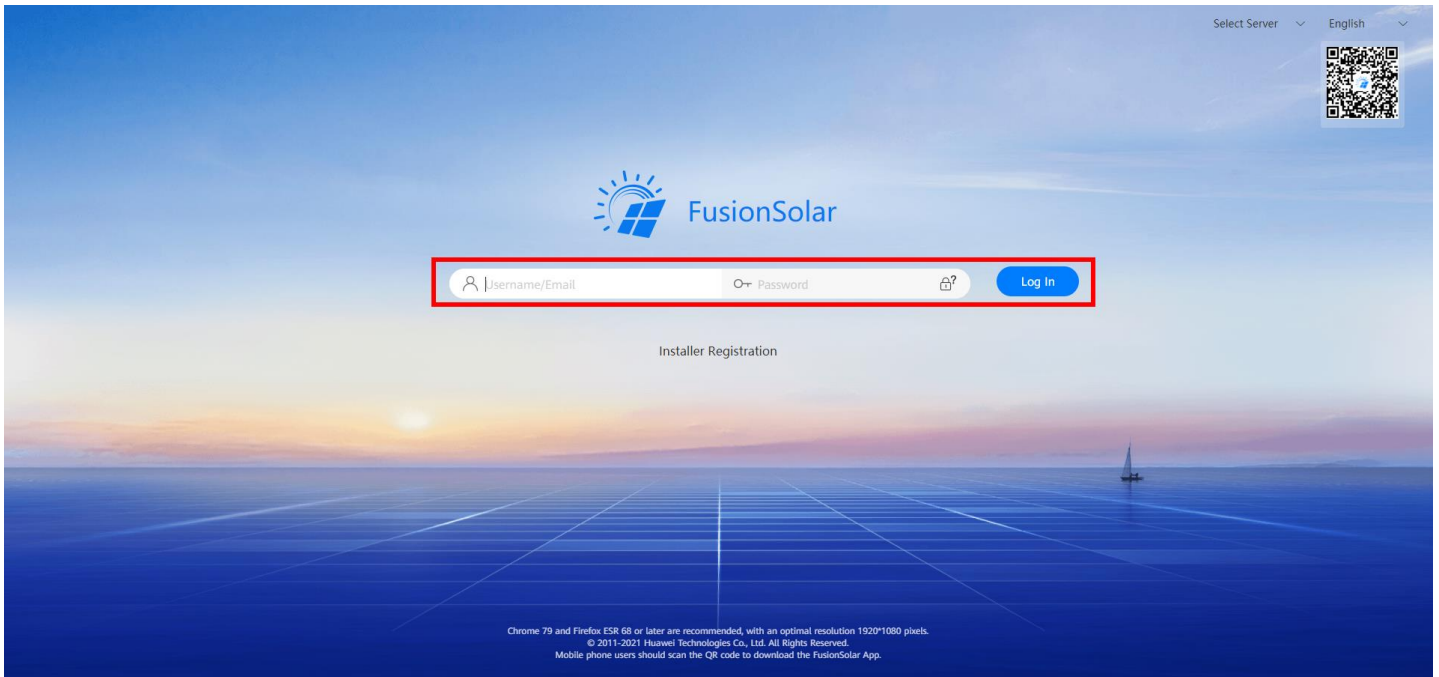

## Huawei Technologies Co. Ltd.

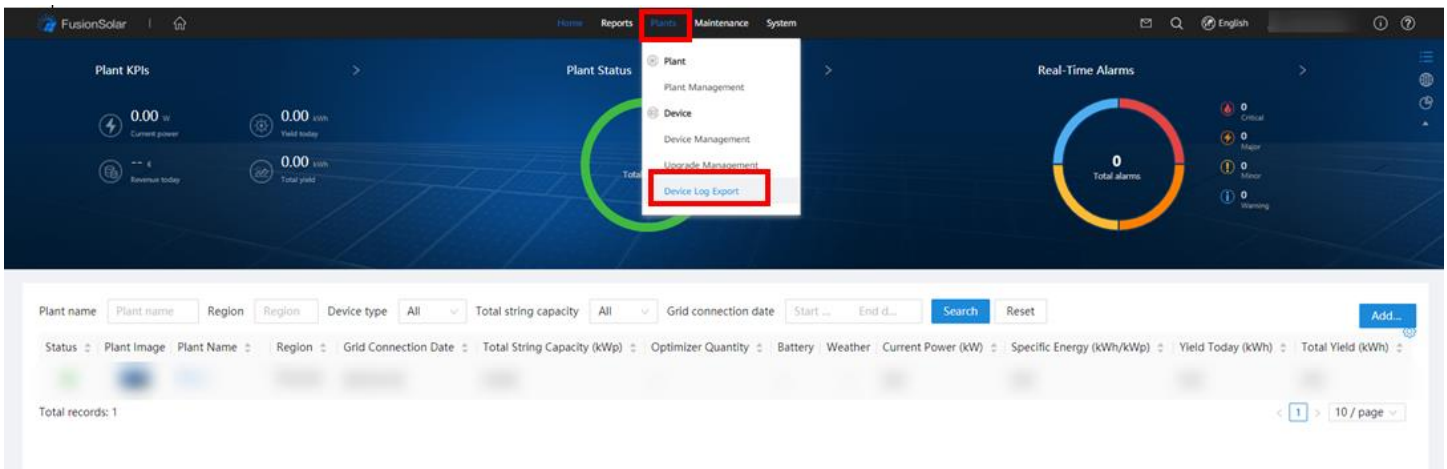

Version	Created by	Date	Remarks
01	Huawei n84155700	24.05.2021	FusionSolar 7

The information in this document may contain predictive statements including, without limitation, statements regarding the future financial and operating results, future product portfolio, new technology, etc. There are a number of factors that could cause actual results and developments to differ materially from those expressed or implied in the predictive statements. Therefore, such information is provided for reference purpose only and constitutes neither an offer nor an acceptance. Huawei may change the information at any time without notice.

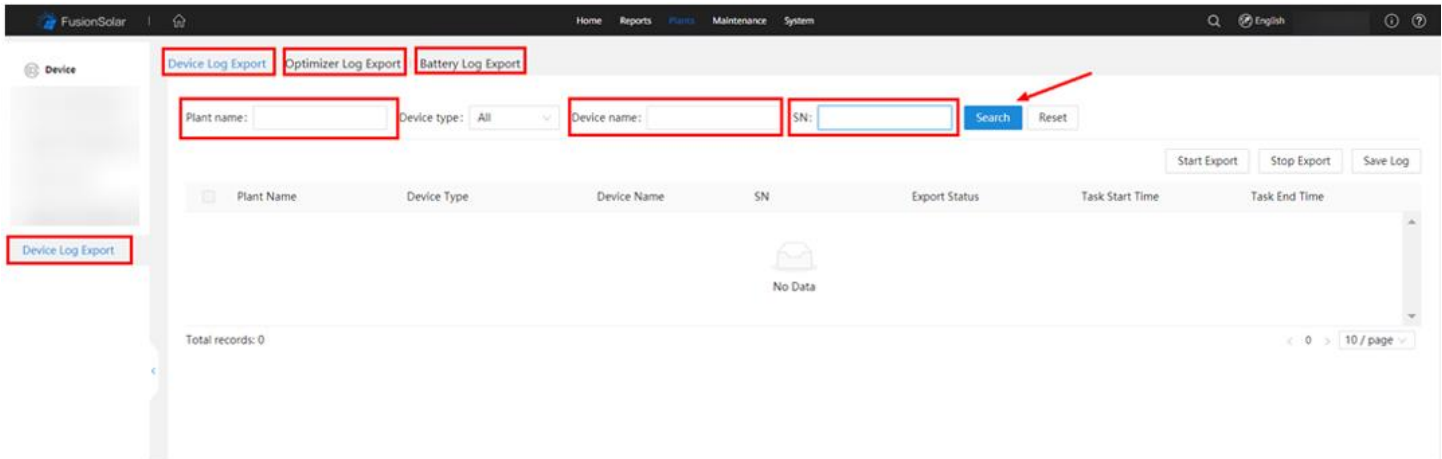

### 1) Login on the FusionSolar platform with your installer account

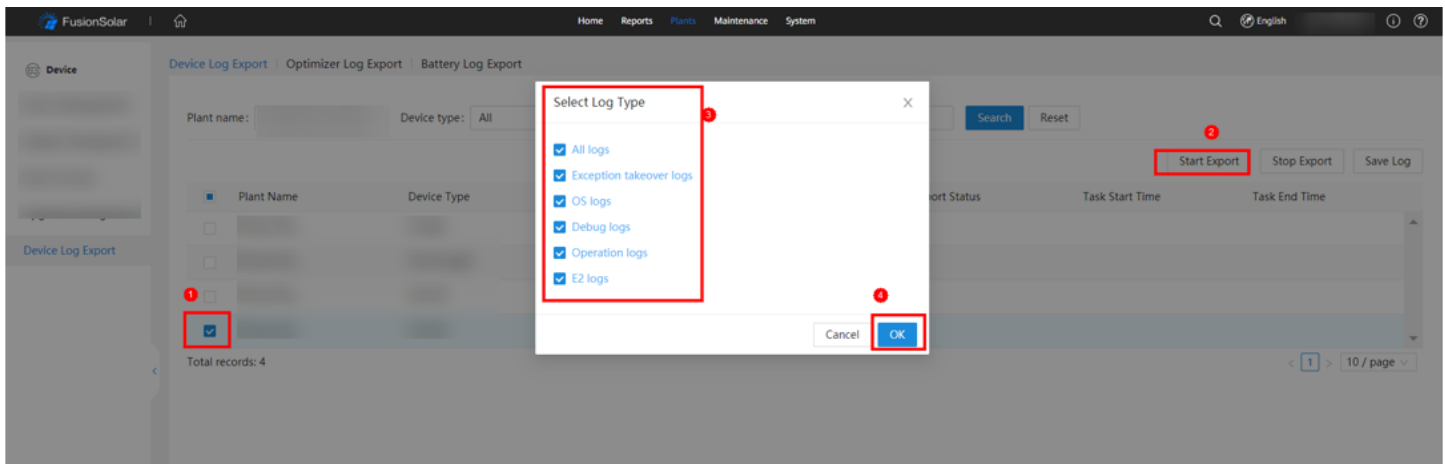

### 2) Go to Plants → Device Log Export

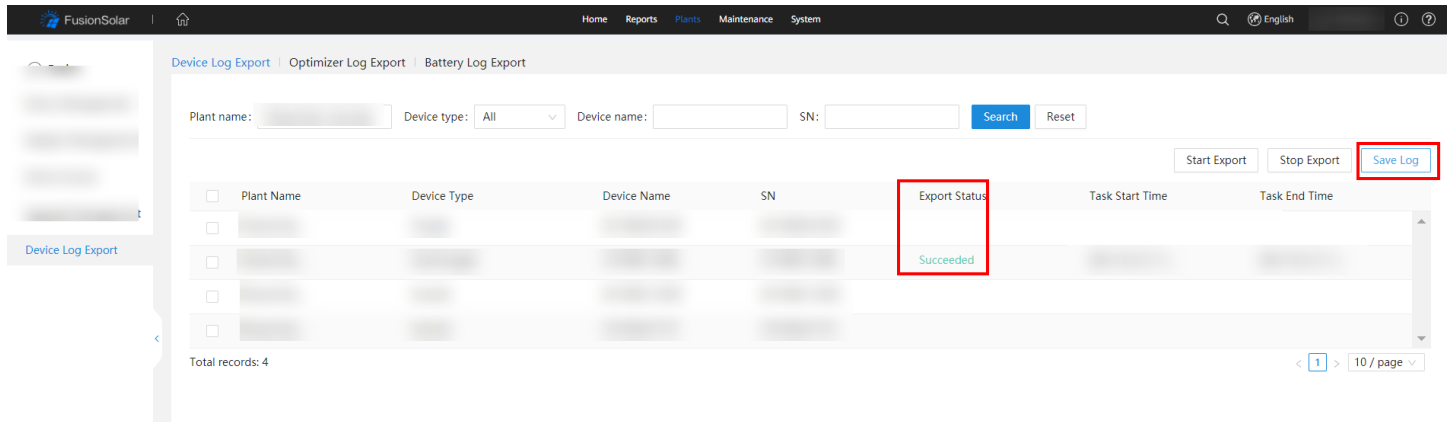

- 3) Select **Device Log Export** / **Optimizer Log Export** / **Battery Log Export** depending on the LOG Files needed to be analyzed. Put the **Plant name** (all devices under this plant will be displayed) or **Device name** or directly **SN** of the device and click **Search**

- 4) Select the device/devices → **Start Export** → select all the Log Type → click **Ok**. After this, the exporting process will start.

5. Check the Export status. Once it's "Succeeded", click on **Save Log** and the LOG Files will be saved on you PC.

The screenshot shows the FusionSolar 7 interface for the 'Device Log Export' function. At the top, there are navigation tabs: Home, Reports, Plants, Maintenance, and System. Below the navigation, there are search filters for Plant name, Device type (set to 'All'), Device name, and SN, with Search and Reset buttons. On the right side, there are buttons for Start Export, Stop Export, and Save Log. The main area contains a table with the following columns: Plant Name, Device Type, Device Name, SN, Export Status, Task Start Time, and Task End Time. The 'Export Status' column for the first row is highlighted with a red box and contains the text 'Succeeded'. Below the table, it indicates 'Total records: 4' and a pagination control showing '1 / 10 / page'.
